

School - Age Summer Adventures

Our morning classroom welcomes each camper every day with the same warm and nurturing environment that all Brookfield Academy programs provide. Summer camp programs at Brookfield Academy offer engaging indoor and outdoor activities for children. Our summer camp programs group children by age and encourage their growing ability to make choices, work with others, and assume responsibilities – all while providing opportunities for fun, friendships, and exploration. There will be a blend of individual, small and large group activities. The day will be filled with a blend of recreational and creative activities that encourages social and physical development.

Brookfield Academy Summer Camp Adventures is a new summer camp program for students 1st Grade – 5th Grade. Our trained and experienced summer camp teachers work collaboratively to develop fun weekly themes that cover everything from science and cooking to sports and the arts. They use playgrounds, the surrounding communities, and special visitors as an extension of the camp, helping children to discover science, explore nature, and engage in the creative arts, while learning about the vast opportunities in the world around them.

Summer Adventure Areas will include:

- Week 1** → **June 18 - 22** **Myths and Legends:** This session of camp is for all who enjoy great stories and the art of storytelling. Campers will look into some of the world's most famous myths, folktales and legends.
- Week 2** → **June 25 - 29** **Extreme Action Cinematography:** See the world from the point of view of your camper as we put various cameras at their fingertips allowing their creativity to run wild!
- Week 3** → **July 2 - 6** **Local Pride:** This topic area is a great time to research your city, county or state and help campers develop some local pride.
- Week 4** → **July 9 - 13** **Global Explores:** Has your child ever wanted to travel to the tropical rainforest or the majestic lands of Alaska? This summer your camper can join us as we travel the world using imagination and creativity.
- Week 5** → **July 16 - 20** **Environment Explorers:** Summer is often a time when families take vacations to far off destinations. But have you taken the time to look in your own backyard? Summer gives us time to connect children with nature. In today's world, campers have less connection to the natural environment.
- Week 6** → **July 23 - 27** **Game On!** During this camp session, we will explore games that are played as professional sports, games of the mind and strategy, and active games!
- Week 7** → **July 30 - Aug 3** **STEM Happens:** During our STEM summer program, campers will participate in various challenges that will require them to research, design, build, create, test, and develop innovative solutions for real world experiences.
- Week 8** → **Aug 6 - 10** **Creative Design:** Imagination and inspiration will shine during this week of art and design. Join us as we explore what makes an artist an artist. Campers should prepare to get messy as they will explore all different types of art mediums and techniques including fine arts, drama, dance and construction.
- Week 9** → **Aug 13 - Aug 17** **The Science of Gross Things:** Campers will learn to think outside the box and give up on the norm, as they explore the Science of Gross Things! Campers are full of great questions and are intrigued to learn about many things that provoke their senses.
